

Shalom Karunwi

STRATEGY · ANALYSIS · EXECUTION

/ SUMMARY

Strategy and policy analyst with 3 years of experience post-grad, including two years in advisory, supporting engagements from diagnosis through to implementation planning for government ministries, regulators, development finance institutions and private clients. At Nextier, I have translated national policy commitments into phased implementation roadmaps, designed a published composite performance index, and authored executive reports that turn regulatory data into decision-ready insight. I combine structured problem-solving with hands-on analytics (Power BI, Python, SQL) and practical automation.

/ CERTIFICATIONS

Data Analyst Nanodegree <i>Udacity (Jan 2023)</i>	Data Analytics Professional Certificate <i>Google (Oct 2022)</i>

/ WORK EXPERIENCE

- 
- DEC 2024 – Present
ENERGY RESEARCH, POLICY, AND DATA ANALYST
Promoted from Data Analyst, January 2026
Nextier Capital Ltd.
- Co-developed the UKNIAF 20-year electricity sector review for FCDO, combining quantitative trend analysis across NERC, TCN, NBET and Market Operator data with a structured interview programme of 12 senior stakeholders, including Nasir El-Rufai and Ngozi Okonjo-Iweala.
 - Designed the Nextier Nigeria Power Sector Market Index (N-PSMI), a weighted four-pillar composite index with a published, reproducible methodology, giving policymakers, investors and lenders a quarterly benchmark ahead of the sector's subsidy transition.
 - Authored the Energy Transition goal and the Governance and Communications chapter of Nigeria's National Integrated Electricity Policy Strategic Implementation Plan, translating Paris Agreement commitments and the Electricity Act 2023 into phased action plans, milestones, KPIs and accountable institutional roles. Presented at a stakeholder workshop attended by the Minister of Power.
 - Structured a lease-to-own financing model for a solar hybrid minigrid client, prepared grant eligibility assessments (including the AFD and EU Digital Energy Challenge), and developed pitches and proposals for development partners.
 - Author of four sector publications; manage quality assurance for the Energy Insights newsletter; produced 24 episodes of the Connecting the Dots podcast end-to-end. Built Python and Microsoft Graph API automations for document management and editorial workflows.

/ CORE COMPETENCIES

Strategy

- Diagnosis, strategic options, implementation roadmaps, governance and accountability design

Performance

- KPI frameworks, MEL design, benchmarking, composite index design

Analysis

- Market, regulatory, financial and commercial performance analysis; stakeholder research

DEC 2023 – NOV 2024

JUNIOR DATA ANALYST

(Ngozi Okonjo-Iweala) NOIPolls Ltd.

- Coordinated data pipelines across large-scale national survey programmes, managing collection, cleaning, analysis and reporting to deliver publication-grade outputs for management and policy audiences on time
- Contributed to project design meetings on questionnaire design, methodology and deliverable planning, keeping the team aligned on priorities and deadlines.

MAR 2023 – DEC 2024

QUALITY ASSURANCE SPECIALIST

Test IO

- Executed 1,000+ user stories within four months and achieved an 85% quality and reliability rating within five months, testing Windows, iOS, Android and Android TV applications.

/ SELECTED INDEPENDENT ENGAGEMENTS

MARKETING ATTRIBUTION STRATEGY karunwishalom.github.io

Hibarr (B2C professional services, 2026)

- Unified six data sources into a single customer view and built position-based and time-decay attribution models, giving the client a basis for reallocating acquisition spend across channels. Delivered as a 9-page Power BI dashboard with a full data dictionary.

SIIPS WAVE 1 DASHBOARD

AfricaNenda Foundation, with the World Bank and UNECA (2026)

- Built a decision dashboard for 2,279 respondents across 18 African countries, enabling segment analysis by gender, income, economic role and country. Delivered Wave 2 as a follow-on.

AUTHOR OF FOUR PUBLISHED SECTOR INTELLIGENCE REPORTS ON NIGERIA'S POWER SECTOR

Nextier Power, 2025–2026
